Pendrive Track List — 001 to 410

410 tracks · one flat `Music` folder on the pendrive · C-28 music speaker

To play a song by number: press **MODE** until **USB** lights on the display, then type the three-digit number on the remote (**0 2 5**) — press the digits quickly, within about a second, or they register as separate jumps. If the player ignores the leading zero, type **25**. A song also plays from the list by using **«** / **»** to step one track at a time.
Note: 156 old recordings carried no title inside the file; they are listed as *Untitled recording* with their exact length so they can be recognised by duration.
